Thank you. I am meeting with Todd and Jim at 9 tomorrow (Fri) morning.

(b) (5) [REDACTED]
[REDACTED] We
could use the existing Monument review team for that.

I have the Papahana paper done, but want to give it a once-over in the morning and then will send it. I came up with some new information on fishing restrictions in place before the designation, and in the process of being implemented at that point, similar to Rose Atoll but more detailed.

Todd knows

All monument management plans period. (b) (5) [REDACTED]
[REDACTED]

Traditional use means anything done in the monument before it was designated. (i.e. grazing and timber).

I had planned to ask these tomorrow, but since I often see Jim and/or Todd in the cafeteria in the morning, thought it would be better to ask this evening -

Do they know my new assignment, or is that part of what I need to talk to them about?

On the report, part D - do you have a list, or does that cover all we looked at, or all period? I presume 1st or 3rd, but don't want to act on a presumption.

And is grazing covered in "access" and "traditional uses", or is that part of what is to be addressed under part D?
